

Fenner Precision Environmental, Safety, and Health Mission

Fenner Precision is committed to protecting the health and safety of its associates, customers and the public by conducting our business in an environmentally responsible and safe manner. Fulfilling this responsibility enhances our ability to provide competitive and profitable products and services worldwide.

Fenner Precision commits to:

- ❖ Conduct our operations in a manner that protects the environment and the health and safety of our associates, our customers, and our neighbors.
- ❖ Comply with all environmental and safety laws, regulations, standards, and permits applicable to our products and operations and comply with our own more stringent standards whenever necessary to implement this policy.
- ❖ Establish and regularly review environmental and safety objectives and targets to promote continual improvements in our environmental and safety management systems.
- ❖ Seek to reduce accidents, injuries, and illness by identifying and eliminating or minimizing unsafe conditions to the greatest extent feasible by applying “ergonomic principles” and “engineering controls” in our manufacturing process.
- ❖ Apply “pollution prevention” and “design for the environment” principles to cost-effectively reduce the environmental impacts of our manufacturing process and of our products.
- ❖ Maintain our good neighbor status by providing relevant information and handling complaints in a timely manner.
- ❖ Work in partnership with the government and the public in the development of responsible and effective environmental and safety laws, regulations, and standards.
